ABOUT CYBR.SEC.Careers

The future of cybersecurity is in the hands of today's students. CYBR.SEC.Careers is a 501(c)(3) nonprofit focused on building the cybersecurity workforce our economy depends on - by expanding access, education, and mentorship for the next generation. Our mission is to build a strong, diverse workforce by providing career exposure, access to education and certifications, and mentorship for students and veterans pursuing careers in cybersecurity.

The Taylor Austin Broussard Memorial Scholarship was established for students and veterans who wish to pursue a

career in cybersecurity. Taylor was working on acquiring cybersecurity certifications in an effort to join the field. In 2016, his dream was cut short by a tragic accident.

It is our hope that you can keep Taylor's legacy alive by helping students and veterans acquire the education they need to join the cybersecurity industry.

The Education Board consists of a group of local universities dedicated to supporting students from high school

college admissions to their first cybersecurity job. Our mission is to connect students to cybersecurity programs, provide guidance and mentorship, and assist with job placement after graduation.

CYBR.SEC.Mentorship is our newest program. Running as a year-round program built to strengthen and support the

cybersecurity community at every career stage - from students, to career changers, to seasoned professionals looking to level up. This program pairs participants with experienced mentors who offer guidance, build confidence, and help them grow skills and professional networks. Our first cohort has 25 pairs and will meet in-person quarterly.

YOUTH.SEC.CON. is a one-day event designed to inspire and educate High School students interested in entering the

cybersecurity industry. Whether students are just starting or already diving into cybersecurity, this program offers hands-on experiences, expert-led sessions, and networking opportunities with industry leaders. In 2025, we had 75 students from the Houston area attend, and we anticipate having over 125 students at this year's conference.
